

FINALLY, LANDSCAPING THAT'S ACTUALLY PERENNIAL.

Lumber is no longer the weak link in durable landscape designs.

Bedford Technology plastic lumber can be used anywhere you used wood—from barricades and borders to raised beds and retaining walls—our plastic lumber is the most cost-effective and innovative parks and recreation landscaping solution on the market for structural and non-structural uses. It will not rot or decay, it's insect and weather resistant and bonds well with epoxy lettering or indicators for long life and easy viewing. With both standard and custom dimensions available in an amazing variety of colors the landscape applications are endless.

Bedford Technology proudly supplies plastic lumber made from post-consumer plastic like milk jugs to parks all across the U.S.

Features:

- Won't rot, splinter or degrade
